

Appendix 14 - Equality Impact Assessment - Proposed Closure of Brading CE Primary School

Before reading the Equality Impact Assessment, decision-makers should take the time to read and consider the following from the Council's Public Sector Equality Duty, United Nations Convention on the Rights of Persons with Disabilities and the United Nations Convention on the Rights of the Child.

1. Section 149, which sets out the Council's Public Sector Equality Duty (PSED), provides:

"149 Public Sector Equality Duty

(1) A public authority must, in the exercise of its functions, have due regard to the need to —

- a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
- b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
- c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

(2) A person who is not a public authority but who exercises public functions must, in the exercise of those functions, have due regard to the matters mentioned in subsection (1).

(3) Having due regard to the need to advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to -

- a) remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic;
- b) take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it;
- c) encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

(4) The steps involved in meeting the needs of disabled persons that are different from the needs of persons who are not disabled include, in particular, steps to take account of disabled persons' disabilities.

(5) Having due regard to the need to foster good relations between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to—

- (a) tackle prejudice, and
- (b) promote understanding.

(6) Compliance with the duties in this section may involve treating some persons more favourably than others; but that is not to be taken as permitting conduct that would otherwise be prohibited by or under this Act.

(7) The relevant protected characteristics are —

- age;
- disability;
- gender reassignment;
- pregnancy and maternity;
- race;
- religion or belief;
- sex;
- sexual orientation.

(8) A reference to conduct that is prohibited by or under this Act includes a reference to —

- a) a breach of an equality clause or rule;
- b) a breach of a non-discrimination rule."

2. In relation to disability, the Council must ensure that it acts in accordance with section 29 of the Equality Act 2010, which provides:

"(6) A person must not, in the exercise of a public function that is not the provision of a service to the public or a section of the public, do anything that constitutes discrimination, harassment or victimisation.

(7) A duty to make reasonable adjustments applies to —

- (b) a person who exercises a public function that is not the provision of a service to the public or a section of the public."

3. In relation to disability, the Council's decision makers should bear in mind need to have drawn to their attention the relevant parts of the United Nations Convention on the Rights of Persons with Disabilities, which refer to:

(1) Promoting, protecting and ensuring the full and equal enjoyment of all human rights and fundamental freedoms by all persons with disabilities, and promoting respect for their inherent dignity (Article 1).

(2) (a) Respect for inherent dignity, individual autonomy including the freedom to make one's own choices, and independence of persons; (b) Non-discrimination; (c) Full and effective participation and inclusion in society; (d) Respect for difference and acceptance of persons with disabilities as part of human diversity and humanity; (e) Equality of opportunity; (f) Accessibility; (g) Equality between men and women; (h) Respect for the evolving capacities of children with disabilities and respect for the right of children with disabilities to preserve their identities. (Article 3)

(3) In order to promote equality and eliminate discrimination, taking all appropriate steps to ensure that reasonable adjustment is provided. (Article 5).

4. In relation to children the Council's decision makers should bear in mind parts of the United Nations Convention on the Rights of the Child which refer to:

(1) respecting and ensuring the rights set forth in the Convention to each child without discrimination of any kind, irrespective of the child's, or his or her parent's or legal guardian's race, colour, sex, language, religion, political or other opinion, national, ethnic or social origin, property, disability, birth or other status (Art 2)

(2) ensuring the child such protection and care as is necessary for his or her well-being (Art 3)

(3) recognising that a mentally or physically disabled child should enjoy a full and decent life, in conditions which ensure dignity, promote self-reliance and facilitate the child's active participation in the community (Art 23)

(4) recognising and seeking to implement the right of the child to the enjoyment of the highest attainable standard of health, including taking appropriate measures: to diminish infant and child mortality; to combat disease, taking into consideration the dangers and risks of environmental pollution (Art 24)

(5) recognising the right of the child to education, with a view to achieving this right progressively and on the basis of equal opportunity (Art 28).

5. This assessment will set out actions that will be taken to mitigate or minimise any negative impacts. Where mitigating action cannot be taken, or the impacts cannot be wholly mitigated, the reason why will be explained.

Assessor(s) Name and job title:								
Naomi Carter, Service Manager								
Directorate and Team/School Name:								
Education, Inclusion & Access, Children's Services								
Name, aim, objective and expected outcome of the programme/ activity:								
Name: School Place Planning Consultation – Brading Church of England Primary School								
Aim: Proposed closure of Brading Church of England Primary - all pupils would be offered a school place at The Bay or St Helens primary schools (or to preference at an alternative school).								
Objective: The aim of this EIA is to assess the findings of the first stage of consultation and clarify if there are any significant issues to prevent moving to the next stage of consultation, which is to proceed to the issuing of the statutory notice. This will provide further opportunity for parents, pupils, staff, stakeholders and wider community to give their views and raise any objections.								
Expected outcome: To provide clarity that all information has been reviewed, considered and ensure Cabinet are informed in their decision-making process.								
Reason for Equality Impact Assessment (tick as appropriate)								
This is a new policy/strategy/service/system function proposal								
This is a proposal for a change to a policy/strategy/service/system function proposal function (<i>check whether the original decision was equality impact assessed</i>)								
Removal of a policy/strategy/service/system function proposal								
Commencing any project/programme								
Equality and Diversity considerations								
Describe the ways in which the groups below may be impacted by your activity (prior to mitigation). The impact may be negative, positive or no impact.								
Protected Characteristic	Negative, positive or no impact (before mitigation/intervention) and why?	Does the proposal have the potential to cause unlawful discrimination (is it possible that the proposal may exclude/restrict this group	How will you advance the equality of opportunity and to foster	What concerns have been raised to date during	What evidence, analysis or data has been used to substantiate your answer?	Are there any gaps in evidence to properly assess the impact?	How will you make communication accessible for this group?	What adjustments have been put in place to reduce/advance

		from obtaining services or limit their participation in any aspect of public life?)	good relations between people who share a protected characteristic and people who do not.	consultation and what action taken to date?		How will this be addressed?		the inequality? (Where it cannot be diminished, can this be legally justified?)																																																																
<p>Age (restrictions/difficulties both younger/older)</p>	<p>Children will become disadvantaged due to the decision – pupils will be forced to move schools early (and then again to secondary school) and deal with the inevitable anxiety and stress that this would cause. Parents would have to create new arrangements and routines, contending with travel and (one time) costs of switching their child(ren) to a new school. These themes will be examined more in the sections for Disability (mental) and Deprivation. The decision would also reduce choice for families in the future for primary education.</p> <p>Within the Sandown and Shanklin planning area, there is some room within the available pupil admission numbers (PAN) for the other primary schools within this area which could absorb the pupil numbers from the proposed closure of Brading CE Primary. Future number of children are set to decline within the planning area and therefore this means that closing the school would not change, or impact on, the future intake of potential pupils within this area. However, current numbers of children on roll in the upper year groups may require the LA to work with other schools in the planning area or adjacent planning areas (Ryde Rural, Ryde Town, Newport and Ventnor) to</p>	<p>The closure of Brading C of E Primary School could ostensibly reduce choice for both children and parents in the Sandown & Shanklin area for primary education – with potential affects to the 4-11 (children) and 18 – 50 (parents) age categories. However, this does not take into account the following:</p> <p>i) Reduction in pupil numbers and applications for school (especially at reception level)</p> <p>ii) Reduction in births at both ward level and locally across the Isle of Wight generally</p> <p>In removing one of the seven primary schools within a planning area (of Sandown & Shanklin), there will inherently be less choice for both of the aforementioned age categories.</p> <p>Brading C of E has not managed to fill its PAN in the past 5 years, with a reduced intake from all of the other primary schools in the area of a PAN size of 25.</p>	<p>Care would be taken to engage fully with affected individuals so they understand fully the meaning and potential consequence of any decision taken. This is especially important for pupils in the schools, as the anxiety and stress in which potential closures cause are well evidenced at this stage. Communication methods and language used will be appropriate to these respective age categories.</p>	<p>The primary concern for the age protected characteristic is that children (0-11) will have i) fewer choices for primary school education in the future for the Sandown & Shanklin area and ii) this would be disruptive for those already at Brading C of E Primary School. Concerns about increased travel times and costs for families, especially those without reliable transport, are frequently mentioned.</p>	<p>i) Reduction in pupil numbers and applications for school at reception level</p> <p>Brading C of E:</p> <table border="1"> <thead> <tr> <th>Year</th> <th>2024</th> <th>2023</th> <th>2022</th> <th>2021</th> <th>2020</th> </tr> </thead> <tbody> <tr> <td>1st</td> <td>14</td> <td>8</td> <td>19</td> <td>10</td> <td>19</td> </tr> <tr> <td>PAN</td> <td>25</td> <td>25</td> <td>25</td> <td>25</td> <td>25</td> </tr> <tr> <td>% of PAN</td> <td>56%</td> <td>32%</td> <td>76%</td> <td>40%</td> <td>76%</td> </tr> </tbody> </table> <p>ii) Reduction in births at both ward level and locally across the Isle of Wight generally (full data set of years 2013 to 2023 provided at end of document)</p> <p>Births in Sandown & Shanklin, 2013 compared to 2023</p> <table border="1"> <thead> <tr> <th>Area</th> <th>2013</th> <th>2023</th> <th>+/-</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Sandown & Shanklin Total</td> <td>216</td> <td>126</td> <td>-90</td> <td>-41.6</td> </tr> <tr> <td>Isle of Wight Total</td> <td>1287</td> <td>919</td> <td>-368</td> <td>-29%</td> </tr> </tbody> </table> <p>iii) Census data shows that overall the 0-19 age demographic has fallen between 2011 to 2021 in the Sandown & Shanklin area. The most significant of these 5 year age brackets relevant to primary school planning are of the 0-4 years component, falling by 182 (or 21%). This 0-4 bracket are the future primary pupils in the ward area, therefore it is likely that pupil numbers in this ward will continue to fall.</p> <p>Sandown & Shanklin 0-19 Demographic Breakdown, 2011 compared to 2021:</p> <table border="1"> <thead> <tr> <th></th> <th>2011</th> <th>2021</th> <th>+/-</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>0 – 4 yrs</td> <td>1043</td> <td>861</td> <td>-182</td> <td>-21%</td> </tr> <tr> <td>5 - 9 yrs</td> <td>1017</td> <td>1078</td> <td>61</td> <td>6%</td> </tr> <tr> <td>10 - 14 yrs</td> <td>1418</td> <td>1048</td> <td>-370</td> <td>-35%</td> </tr> <tr> <td>15 - 19 yrs</td> <td>1555</td> <td>954</td> <td>-601</td> <td>-63%</td> </tr> </tbody> </table>	Year	2024	2023	2022	2021	2020	1st	14	8	19	10	19	PAN	25	25	25	25	25	% of PAN	56%	32%	76%	40%	76%	Area	2013	2023	+/-	%	Sandown & Shanklin Total	216	126	-90	-41.6	Isle of Wight Total	1287	919	-368	-29%		2011	2021	+/-	%	0 – 4 yrs	1043	861	-182	-21%	5 - 9 yrs	1017	1078	61	6%	10 - 14 yrs	1418	1048	-370	-35%	15 - 19 yrs	1555	954	-601	-63%	<p>Census data falls short of 3 years – however other data shows supporting trends. Pupil projections are developed from birth rate data and trends, approved and expected housing developments, and from migration information. We use data from national government and the NHS. Historically our forecasts have been accurate. Projections are always only our best estimate. Within all of our planning areas we aim to retain a minimum of 10 per cent surplus to account for potential movement or increase in children living in the planning area</p>	<p>There has been a range of consultation events so far:</p> <ul style="list-style-type: none"> - Drop-in sessions - Working with staff of affected schools - Surveys to allow the community voice to be heard <p>-Online website - Information leaflets -Radio campaign</p> <p>This provides parents, especially, with a range of options of how to engage and gain information about the potential choices.</p>	<p>All children will be offered a school place at The Bay or St Helens Primary Schools, within the locality of Sandown & Shanklin. There would be no denial of the same level of education and schooling within this protected characteristic.</p> <p>We are aware that any transition to a new school will need to be managed very carefully to protect the wellbeing of the young people. A robust transition plan would be prepared if the decision is taken to proceed to statutory consultation..</p>

accommodate the bulge year groups should parents preference be to attend an alternative school closer to their home address.

The counterfactual of this proposed decision (keeping Brading C of E Primary open) could have more wide-ranging socio-economic impacts on the local area due to the present pressures on the local authority and school funding – which would directly impact families on the Island.

Disability
a) Physical
b) Mental health
 (must respond to both a & b)

Negative impact

There will negative impacts arising from disadvantage as regarding disability, due to the pupils at the school who are identified to have special education needs (SEN) support or Education, Health and Care Plans (EHCP). These pupils will find the transition between schools more challenging owing to the disruption that moving schools prematurely would cause.

Brading C of E have a significantly higher than average SEN requirement so the management of these pupils in transition would need to be very careful and resource intensive. Brading C of E has three times the average percentage of pupils with EHCPs (when compared to primary schools on the Island) with a higher than average count for pupils with SEN support.

There is no local evidence to substantiate the particular effect of the closure of Brading C of E Primary on its pupils, it can be

The facilities, adaptations and services offered by Brading C of E Primary School in respect to accommodating pupils with disabilities will be available to the school which they move to, if closure were to take place.

There will be disruption in the routines for children with higher needs resulting from moving schools. There are currently 29 children with an Education, Health and Care Plan (EHCP) who attend Brading C of E Primary School. All children will be offered an alternative suitable placement to meet their needs with detailed transition plans put in place to support their move to another school.

There are also 42 pupils at Brading C of E Primary who have special educational needs support. This is higher than average. The proposal (removal of Brading C of E, with pupils moving to The Bay or St Helens Primary) should be taken very seriously as to account for this extra SEN resource that would be required from The Bay or St Helens Primary in order to accommodate these pupils in a way that guarantees continuation of support plans.

There may also be a negative impact to the mental wellbeing of children. There is evidence through public consultation results which show there are

The local authority would work with pupils identified with EHCPs and SEN to ensure that there are specific transition arrangements in place to provide the same level of support. The health and well-being of our Children and young people is a priority in all areas of Childrens Services and will remain a key priority in all future work. We are also working with our colleagues who run the Mental Health Support Team to ensure appropriate support is targeted to schools affected. The 'Well-being' service identified through the

Concerns have been raised through the consultation process around the impacts of school closures for children, particularly the mental wellbeing and for those children with an EHCP. Analysis has been taken to understand the level of SEND. EHCP support will be provided to Brading C of E to ensure that the proposal is fit for individuals who have a additional special educational needs and disability. The local authority would ensure that this provision is not compromised during transition to a

There are no measures collected locally or nationally which allow to analyse disability in schools. However, a proxy measure has been used in place of this for pupils with special educational needs and disabilities (SEND) and Education, Health and Care Plans (EHCP). Students who require an EHCP need a higher level of support.

School Name	Sen Support %	Sen Support Count	EHC Plan %	EHC Plan Count
Brading C.E. Primary	24.1	42	16.7	29
Primary Average	16.1	38.8	4.3	10.1

Brading C of E Primary has a far higher than average (when compared to all primary schools on the Island) EHCP count and percentage.

Should school closures be agreed - Planning will take place for all children with an EHCP. This would include a discussion with the parent to understand the relevance of the content of the EHCP and to understand their wishes around school preference. The local authority will determine if an annual review is required, if it is a review will be scheduled at the earliest opportunity. The LA would notify the parent of the outcome of the review in 4 weeks and inform them of subsequent timescales should an amendment be required, a draft amended plan will be issued to the family, they must be given 15 days to comment and make

There has been a range of consultation events so far:

- Drop-in sessions
- Working with staff of affected schools
- Surveys to allow the community voice to be heard
- Online website
- Information leaflets
- Radio campaign

This provides parents, especially, with a range of options of how to engage and gain information about the potential choices.

There will be a continuation of support provided in transition from one school to another.

	<p>reasonably suggested that this would have minor impacts on their mental wellbeing. Moving schools is proven to be challenging for children, especially at a primary age. Friendship groups are unlikely to be broken up by the proposal but the transition would certainly separate pupils from their established relationships with teachers and staff within the school, many of whom have a crucial impact at formative stages of learning and development.</p>	<p>trends which show pupils exhibit worry and anxiety over the possibility of school closure and, furthermore, moving schools and being (potentially) separated from pre-existing friendship circles.</p>	<p>consultation process will be prioritised for support through a new initiative called 'My Happy Mind' which aims to help schools, nurseries and families create a culture of positive mental well-being. My Happy Mind is a whole school and every child approach and is not just reserved for those at the point of need and will work complimentary and collaboratively with existing Social Emotional Mental Health and well-being services on the IOW.</p>	<p>new school, and that all children continue to receive support through the Mental Health Support Team, and our Wellbeing service to assist a suitable offer/transition.</p>		<p>representations including sharing a preferred school. Consultation would take place with the school and the LA will review this consultation response prior to finalising the plan (total time of 8 weeks from the amendment notice). If it is determined that the EHCP is relevant, and the plan only requires minor/specific changes in the child circumstances such as a change of school the parent will be notified and must be given 15 days to comment and make representations, including naming their preferred school. Consultation will then take place with the school and the LA will review this consultation response prior to finalising the plan. (4 weeks) Transition plans will be individual to each child, the LA will facilitate these with all schools involved.</p>		
<p>Race (including ethnicity and nationality)</p>	<p>No impact</p> <p>Brading Primary School has a lower than average ethnic makeup of 9% BME pupils (black and ethnic minority – i.e. non White UK) compared to the Island primary school average of 12% BME.</p> <p>There is unlikely to be any negative impacts in regards to the protected</p>	<p>There is no evidence to show that pupils from this protected characteristic group will be denied or absent of any facilities due to this proposal. It should be noted that the potential closing of Brading C of E Primary School, however, is likely to have a more disproportionate affect within the wards (and the Island's) BME population moreso than other schools.</p> <p>Brading Primary School has 8 pupils with English as an</p>	<p>Any pupils from a BME background should be allowed to maintain their pre-existing support (friendship groups) within their current school systems. The proposal would allow for this as</p>	<p>There have been no concerns raised at the current time in relation to disadvantage of pupils or staff within this protected characteristic</p>	<p>i) Breakdown of ethnicity of pupils at each Isle of Wight Primary School (Spring 2024)</p>	<p>BME families/ households are statistically more likely to be economically disadvantaged – however no assessment can be made with available data to link this with ethnicity data within schools, providing a</p>	<p>There has been a range of consultation events so far:</p> <ul style="list-style-type: none"> - Drop-in sessions - Working with staff of affected schools - Surveys to allow the community voice to be heard -Online website 	<p>All BME pupils from Brading C of E Primary would stay within their locality for schooling</p>

	characteristic of race for this reason, as both schools currently display a similar ethnic mix.	additional language (EAL) which provides funding to the school. This funding will be able to transfer to whichever school these pupils were to move to.	all students could move together uniformly within the same locality			potential gap of how BME families could be disproportionately affected.	- Information leaflets -Radio campaign This provides parents, especially, with a range of options of how to engage and gain information about the potential choices.	
Religion or belief (different faith groups/those without a faith)	Negative impact There are negative impacts as a result of this proposal as the closure of Brading C of E Primary would result in the loss (and reduction of choice for families and pupils) of Church of England primary schools within the locality	The closure of Brading C of E Primary would result in the loss of 1 of 3 Church of England primary schools within this locality (Sandown & Shanklin). Sandown & Shanklin have the highest proportion of religious/faith schools with 3 out of 7 primary schools being Church of England. There would be sufficient room with PAN figures across primary schools within this locality and one school within the proposal (The Bay CE) for pupils to transition to, if Brading Primary were to close, is a C of E school also.	All pupils of different religions or beliefs will be provided with equal opportunities. To ensure all pupils of different religions or beliefs have equal opportunities, schools will be asked to consider these strategies: 1. Inclusive Curriculum - Use materials that represent various religions and cultures. - Encourage discussions that promote understanding and respect. 2. Respectful Environment - Implement anti-discrimination policies and train staff on cultural sensitivity. - Create safe spaces for students to express their beliefs. 3. Celebrate Diversity	While Brading C of E is a religious/faith school, there have been relatively few concerns raised over this protected characteristic (and accessing a C of E school in this locality) – however there has been concerns raised over the added travel which would be required to attend a C of E school for these pupils, especially as families within Brading are more likely to be deprived	i) ii)	Evidence collected from public consultation comments. Analysis of nearest schools	There is no data at present to show the religious/belief breakdown of pupils at Isle of Wight primary schools (only ethnicity). It cannot be assumed that pupils who attend a religious/C of E school are there for the primary reason of receiving a faith education. However, analysis has been undertaken to ensure that all pupils within this school would be able to continue a religious/faith primary education should they wish to. There has been a range of consultation events so far: - Drop-in sessions - Working with staff of affected schools - Surveys to allow the community voice to be heard -Online website - Information leaflets -Radio campaign This provides parents, especially, with a range of options of how to engage and gain information about the potential	All pupils of different religion/belief will still be able to access secular primary education

			<ul style="list-style-type: none"> - Organise events for different cultural and religious festivals. - Involve students in planning these celebrations. <p>4. Support Systems</p> <ul style="list-style-type: none"> - Provide counselling that respects diverse backgrounds. - Establish peer support groups for shared experiences. <p>5. Engage Staff, Parents/carers and Community</p> <ul style="list-style-type: none"> - Maintain open communication with staff, parents and community leaders. - Collaborate with local organisations to support inclusivity. <p>6. Feedback Mechanisms</p> <ul style="list-style-type: none"> - Regularly gather feedback from staff, students and parents/carers. - Be willing to adjust policies based on their input. 																	
Sex	There are negative impacts as a result of this proposal as the closure of Brading CE Primary would result in the loss of a school provision and data from various studies indicates that in the UK, female parents or carers are more likely to be	The decision would not have an effect on the mix of pupils in terms of sex distribution across schools. Brading C of E Primary School and The Bay or St Helens Primary Schools (the proposed alternative for pupils if Brading C of E Primary were to close) are both nearly at a 50/50 split of male and female pupils, so any	Care will be taken to engage fully with affected individuals so they understand fully the meaning and potential consequence	There have been no concerns raised at the current time in relation to disadvantage of pupils or staff within this protected characteristic.	<p>i) Distribution of the gender (male/female) of pupils at primary schools on the Isle of Wight</p> <table border="1"> <thead> <tr> <th>School Name</th> <th>Male %</th> <th>Male Count</th> <th>Female %</th> <th>Female Count</th> <th>All Pupil Count</th> </tr> </thead> <tbody> <tr> <td>BRADING C.E. <p>Sexual orientation</p>	<p>No impact to this group as a direct consequence from the decision</p>	<p>Sexual orientation of parents/carers or pupils form no part of the proposed school closure or future school admission process. This would also apply to the recruitment process for staffing. There are no realistic impacts, needs or issues relating to sexual orientation.</p>	<p>As a Local Authority, we embrace and promote high quality teaching of PSHE and RSE. Working with schools to promote diversity and inclusion throughout these programmes and have due regard for positive relationships between people.</p> <p>We promote the UN's Right Respecting education programme and encourage schools to be part of this.</p>	<p>There have been no concerns raised at the current time in relation to the disadvantage of pupils or staff within this protected characteristic. This will continue to be reviewed and updated throughout the process.</p>	<p>As there are no perceptible potential impacts arising from this decision to sexual orientation, no appropriate data has been identified</p>	<p>There has been a range of consultation events so far:</p> <ul style="list-style-type: none"> - Drop-in sessions - Working with staff of affected schools - Surveys to allow the community voice to be heard <p>-Online website - Information leaflets -Radio campaign</p> <p>This provides parents, especially, with a range of options of how to engage and gain information about the potential choices.</p>	<p>Through our quality assurance process, we will monitor the quality of the schools</p> <p>Personal, Social, Health and Economic curriculum and its impact. Triangulated against data trends and patterns.</p>													
<p>Pregnancy and maternity</p>	<p>No impact to this group as a direct consequence from the decision</p>	<p>Pregnancy and maternity status of parents/carers form no part of the school admission process. This would also apply to the recruitment process for staffing. There are no realistic impacts,</p>	<p>As there are no perceptible potential impacts arising from this decision to people who are pregnant or in maternity, no appropriate data has been identified</p>																	

		needs or issues relating to pregnancy or maternity status.						
Marriage and Civil Partnership	No impact to this group as a direct consequence from the decision	<p>Marriage and civil partnership would not directly involve children of primary schooling age (although they may be children of married or unmarried parents or civil partners – however this would not form part of the decision).</p> <p>Marital or civil partnership status does not inform any part of the recruitment process for school staffing so there would be no impact in this regard to redeployment or any decisions taken.</p>	As there are no perceptible potential impacts arising from this decision to people with marital/civil partnership status, no appropriate data has been identified					
Gender reassignment	No impact to this group as a direct consequence from the decision	<p>It is unlikely that gender reassignment would involve children of primary school age but appropriate support would be in place to any child to which this applies. This would be an exceptional circumstance and there are no facilities or specific characteristics of Brading C of E Primary School which provide specific functions to (any potential) children within this protected characteristic.</p> <p>Gender reassignment status does not inform any part of the recruitment process for school staffing so there would be no impact in this regard to redeployment or any decisions taken.</p>	As there are no perceptible potential impacts arising from this decision to people experiencing gender reassignment, no appropriate data has been identified					
Deprivation & inequality (added to form part of the assessment while not being a protected characteristic)	<p>Negative impact</p> <p>Due to the ongoing cost of living crisis it is recommended to look at the impacts this could have on families, especially those with higher levels of deprivation.</p> <p>There will be impacts to families financially which will be varied in terms of the level of impact depending on a range of factors – number of children within a single family/household at the affected school, changes to travel time and routine disruption, cost of uniforms being purchased.</p>	<p>The Isle of Wight, as a whole, is in the top 30% of deprivation across England (2019 Indices of Deprivation) for income.</p> <p>The locality of Sandown & Shanklin, where Brading C of E Primary is situated and its planning area is, ranks high for a deprivation decile score of 3 (where 1 is the most deprived and 9 is the least deprived) when looking at its lower super output areas (LSOAs).</p> <p>There are a subset scoring which can be used for schools – the income deprivation affecting children index (IDACI). The IDACI is arranged into bandings where A contains pupils from the most deprived LSOAs and G are from the least deprived LSOAs.</p> <p>90% of Brading C of E Primary pupils are in Band F to A (top</p>	<p>The council will work with affected schools (both of proposed closure or in receipt of new students) to form transition schemes, such as uniform exchanges.</p> <p>The transport policy will also be publicised for parents to assist with any concerns about travel for families who qualify</p>	<p>The cost of living crisis is at the forefront of most people's mind at the current time, with multiple pressures mounting. This is reflected in consultation comments to date, where parents are expressing concern over the financial strain that moving schools may raise.</p>	<p>i) 2019 Indices of Deprivation</p> <p>ii) Isle of Wight joint strategic needs assessment (JSNA)</p> <p>iii) Income deprivation affecting children index (IDACI)</p> <p>iv) Consultation responses</p>	<p>Deprivation data, both nationally and locally, is well documented. This may not, however, show the strain that some families are feeling financially due to other pressures which are unique to the previous few years. Rising costs across the board for families (mortgage, utilities, food prices) may present a different, and hidden, picture for some families. The recent public consultation has given a more</p>	<p>There has been a range of consultation events so far:</p> <ul style="list-style-type: none"> - Drop-in sessions - Working with staff of affected schools - Surveys to allow the community voice to be heard <p>-Online website</p> <p>- Information leaflets</p> <p>-Radio campaign</p> <p>This provides parents, especially, with a range of</p>	<p>Support to families with uniforms – while there is no policy to provide new school uniform, the local authority would work with the affected schools to set up an exchange programme to donate or swap used uniforms.</p> <p>The proposed closure, if decided upon, would also coincide with the end of the schooling year where changing of uniform (for new sizes, or for wear and tear) is</p>

	Sandown & Shanklin (locality) and Brading C of E Primary (school) both rank highly in deprivation scores both locally and nationally. For this reason, the decision would be more negatively impactful on families as opposed to other areas/schools.	37.5 most deprived areas), with only 10% of pupils in the (least deprived) band (G). This means that 90% of pupils at Brading C of E are eligible for deprivation funding from the government. Brading C of E Primary ranks highly on deprivation scores across multiple subsections when compared to other Isle of Wight primary schools, as does the locality of Brading itself. The surrounding areas of Sandown are also one of the more deprived areas on the Island.				individualised perspective that can be used to understand this further.	options of how to engage and gain information about the potential choices.	most likely to occur
