A woman wearing a red helmet and a red tank top is climbing a rope in a forest. She is smiling and pointing towards the camera. The background is filled with green trees and sunlight filtering through the leaves.

# Take your education to a higher level on the Isle of Wight

**The Isle of Wight is a unique location - ideal to live, work, learn and play! Because it's a great place to live, it's also a great place to study.**

The Island is where you can take education to a higher level; whether you've already got a job and want to gain a higher education qualification at the same time; if you want to do a higher level or degree level apprenticeship, or if you want to take a full or part time course.

# Expand your horizons

**The Isle of Wight has a unique and inspiring natural environment and a reputation for combining great lifestyle with work and study. There are many exciting career opportunities on the Island; from world-leading technology and engineering to culture and the creative arts.**

We want to make sure that everyone – residents on the Island and those living further afield – understands the opportunities available and has the right information to make decisions about further learning.

There is a wide range of programmes available for higher level study, which can open up real opportunities to prepare young people for their first step on the career ladder and for adults to further develop their skills.

The Isle of Wight is a great choice for taking learning to a higher level. There are lots of full time, part-time and work-based programmes, such as apprenticeships, to choose from. This guide, which is produced by the i-aspire project, through the Southern Universities Network, provides details of all the courses currently available on the Island at Level 4 and above.

Our ambition is to make the Isle of Wight an even more exciting and vibrant place to work and live, and we are determined to give people the aspiration and opportunity to develop the skills they need to fulfil their potential and help our businesses to thrive and grow.

We are working closely with our partners to develop more opportunities in the future. We will ensure that islanders have the skills they need to pursue rewarding careers and fulfilling and active lives, and that people living beyond its shores see the Isle of Wight as a truly inspirational place to live, work and study.

**Councillor Paul Brading**  
**Isle of Wight Council**

# Introduction

**The beautiful beaches and countryside of the Isle of Wight have been drawing visitors for hundreds of years.**

The Island has a great reputation for innovation and creativity, starting when Victorian celebrities came down to be inspired and refreshed by the glorious countryside and of course, the social life. Charles Darwin, Karl Marx, Julia Margaret Cameron, Tennyson and Lewis Carroll all created some of their most famous works here.

The legendary Isle of Wight Festivals in the 1960s and 70s remain some of the largest and most famous pop and rock music events in history. Festivals and events are still a big part of Island life.

Cowes Week is the largest sailing regatta of its kind in the world, and supports a huge range of businesses and services that have grown up around the yachting and maritime industries.

The Island offers a vast range of sporting and leisure activities with watersports and coastal activities very much at the fore: surfing, sailing, windsurfing, beach soccer, coastering, swimming, kayaking, and paddleboarding are popular, in addition to onshore activities like cycling, walking, yoga, hang gliding, fishing and many more!

Night.Life.

Much of Island is a designated Area of Outstanding Natural Beauty and has recently been awarded the coveted UNESCO Biosphere status, epitomising the Island's passion for environmental conservation and sustainability amidst the potential impact of climatic change.

The numerous beaches and glorious countryside provide the perfect environment to work and study.

The Isle of Wight has long been an example of thriving industry and creativity, and has key sectors of employment, such as engineering, hospitality, tourism, healthcare, construction and many more, which offer great opportunities for career progression. Studying for a higher level qualification, can lead to employment or greater career opportunities in many sectors, on and off the Island.

The Island's history of invention and innovation is world class. The hovercraft was conceived here and current design and manufacturing technology is used in aviation, wind energy, cosmetics, marine and numerous other leading industries.

The Island is also renowned for being the home of many creative industries, such as music, design, literature and art and produces exceptional talent which is highly acclaimed in the national and global arena.

# Head. Space.

# Join the Island community

## Studying on the Isle of Wight has loads of obvious benefits:

- Save money with cheaper accommodation or living at home.
- Opportunities to earn and learn at the same time.
- Study in a unique environment to benefit health, lifestyle and career opportunities.
- Be part of the friendly, safe Island community.
- Enjoy the sport, activities, and great music vibe which **is** the Isle of Wight.

## Learn and study in the workplace and classroom

### There are many options for gaining your higher or degree level qualification.

Qualifications available include full and part time foundation degrees, Higher National Certificates, Higher National Diplomas and full degrees, accredited by higher education institutions who partner with the Isle of Wight. These are available as part-time study, while you are in your job, or as full time study.

Alternatively, you can gain your higher education qualification through a higher level or degree level apprenticeship. Apprenticeship opportunities at a higher level are increasing greatly, and they are highly regarded in the workplace. The range on offer is expanding continuously.

# Qualification levels

If you are qualified up to level three, you're now ready to continue your education to higher level. On the Isle of Wight, you can study either as a full or part-time student, up to level six as an apprentice, or up to level seven. If you do not have A-Levels you could still study for a higher level qualification via the Access to Higher Education Diploma (see next page).

## Access to higher education

The Access to Higher Education Diploma is nationally recognised as a university entrance qualification and alternative to A-Levels or other Level 3 qualifications for adults wishing to go to university. The programme is designed for adult learners who come from a broad age range and varied backgrounds. There are various different access to higher education programmes, depending on your preferred degree route or your career path.

[www.iwcollege.ac.uk/course-areas/access-to-higher-education/](http://www.iwcollege.ac.uk/course-areas/access-to-higher-education/)

## Advanced learner loans

If you have already achieved a Level 3 qualification, you may be able to apply for an advanced learner loan to fund your access to higher education course. If you then go on to achieve a degree at university, this loan may be written off and therefore not repayable.

[www.gov.uk/advanced-learner-loan](http://www.gov.uk/advanced-learner-loan)

# Information advice and guidance

## Island Futures

The Isle of Wight Council's Island Futures team provides independent information, advice and guidance to support young people, up to age 19, to participate in education, employment and training. To make an appointment to see an advisor phone 01983 823888.

[www.iwight.com/IslandFutures](http://www.iwight.com/IslandFutures)

## National Careers Service

This is an all-age service providing information, advice and guidance to help with decision-making on learning, training and work. Visit the website to use the webchat option, or phone 0800 100 900.

[www.nationalcareersservice.direct.gov.uk](http://www.nationalcareersservice.direct.gov.uk)

## Careers support for students

If you are at a school or college, contact your careers leader or co-ordinator for information on how to access careers support. You should be able to make an appointment to speak to a careers adviser and see what career resources there are in school and college.

[www.careerpilot.org.uk](http://www.careerpilot.org.uk)

## Careers support for workers

Discuss options with your employer as they might be able to support you to do an apprenticeship.

[www.allaboutcareers.com](http://www.allaboutcareers.com)

# Providers

## HTP Apprenticeship College

At HTP Apprenticeship College, we've years of experience in helping young people start and progress their careers. With a wide variety of courses and the flexibility to learn at a time and place that suits you, we'll help you find the route that's right for you.

## The Isle of Wight College

The college is the Island's major provider of vocational training, apprenticeships and higher education. Working in partnership with universities and other awarding organisations, the college offers a range of programmes which enables students to study on the Island for higher level qualifications and apprenticeships that meet employer and student needs.

## Platform One

Platform One is a revelation - the facilities they have are beyond all expectation. The students are talented, respectful and thirsty for knowledge. Links with the modern music industry are in abundance, with weekly guests enhancing the curriculum. If you are looking for a career in the creative industries then this is the college for you - be sure to check it out.

## UK Sailing Academy

With a global reputation for excellence, UKSA has helped launch the careers of hundreds of students each year. The key to our reputation and success lies in the quality of the training we provide, our understanding of the industry, and the ongoing support provided by our careers service.

## Centre of Excellence for Composites, Engineering, Advanced Manufacturing and Marine (CECAMM)

This state of the art, specialist facility, which is part of The Isle of Wight College, brings together industry and education. CECAMM's mission is to develop the workforce of tomorrow to ensure that employees have the skills and knowledge employers want in the fast moving field of engineering and manufacturing.

## Open University

Fit study around your life and be your future self sooner with our flexible career-boosting courses. What's stopping you?

# Take their word

## Jack Ford

**Diploma in Management and Leadership at Bayliss & Booth**

*"I feel really proud of myself and I have a real sense of achievement. Lots of my friends went down the traditional university route but for me, I just preferred the idea of going into the workplace and actually being able to apply what I was learning directly to my job.*

*It's been really rewarding, and it's enabled me to help mentor and support other members of the team, too.*

*It's been great for me as it's allowed me to work, earn money and develop my skills without going down the full degree route."*

## Joshua Ince

**Higher Level Engineering Apprenticeship at Strainstalls**

Joshua completed his full-time engineering level 2 course followed by a level 3 advanced apprenticeship in mechanical manufacturing engineering at Strainstall. He also completed the EAL level 3 Diploma in Engineering Technology. He has made great progress at Strainstall and is now completing the higher level apprenticeship in Engineering Manufacturing alongside level 5 HNC at CECAMM

*"I really enjoy working at Strainstall alongside studying hard for the HNC. I have the opportunity to work and earn, while achieving excellent qualifications."*

## Claydon Connor

**BA (Hons) Commercial Music at Platform One**

*"My years at Platform One were some of the best of my life. Being able to study something I was so passionate about full time on my doorstep was a dream come true. With top spec studios and rehearsal rooms, the facility is the ideal environment to learn, create and play music. Platform One provided me with the tools to make a career in music"*

Claydon has released an impressive catalogue of music, plus set up Studio 5a and Strings music venue. A true entrepreneur.

# Seat of learning

## Southern Universities Network (SUN)

In addition to providing excellent degree and higher level courses, the Isle of Wight is extremely fortunate to be located close to some excellent universities, which form the Southern Universities Network.

Some of these universities provide an extensive range of degree level apprenticeships in addition to their full-time degree courses. SUN members are:

- Arts University Bournemouth
- University of Southampton
- University of Portsmouth
- University of Winchester
- Southampton Solent University
- University of Bournemouth

The Southern Universities Network has funded the i-aspire project which is key to supporting people on the Isle of Wight to access higher education.

# Think you know the Isle of Wight?

- Only three miles from the mainland.
- No passport required (for UK nationals).
- Beautiful environment. And it's not just us saying it - in 2019 the Island was designated UNESCO Biosphere Reserve status.
- Great culture and creative communities.
- Fabulous local food; restaurants, cafés, pubs and picnics!
- Brilliant adventure activities, on land and all at sea.
- Breath-taking dark skies in stunning landscapes.
- Oodles of heritage, archaeology, and dinosaurs!
- The sunniest place in Britain (probably!).
- Peaceful, exciting, innovative and friendly.
- Fantastic for walks and cycling.
- Award-winning beaches.
- Festivals all year round.
- Loved by celebrities!

Will you find your place?
