

Feedback from parents and children about the short breaks activities at John Cattle's Skate Club

"I just cannot praise skate club highly enough. My daughter is autistic and can find new activities really challenging. John has inspired her and filled her with confidence, and skate club is now the high point of her week. The way John interacts with the kids is amazing; he is patient, knowledgeable and totally unflappable, and seems to know exactly how to get the best out of each of them. We are so lucky to have this facility on the Island!"

"My daughter loves her skate lessons, I just wish her teachers at school had the same temperament as you, you are a natural."

"Very good and patience of a saint especially with children who have additional needs."

"We love skate club! The kids have gained so much confidence since joining a few months ago. Today my son had a fab skate party to celebrate turning 7, thank you John for all your support and patience with the kids. They all had a great time."

"What a great guy John is and really did make the kids welcome and helping them and couldn't help out enough and even jumped over me what skills he's got I would highly recommend him."

"I extremely enjoy coming here. John has completely turned my life around."

"Amazingly supportive skate club.. My daughter was a nervous 7 year old and is now a far more confident and tough 8 year old. John has a real skill with supporting kids and encouraging them to be a bit braver and try something new. Amazing community spirit and providing a safe engaging space for youngsters to learn new skills. Great job!"
