1. What type of respondent are you?

Member of the public

2. What IPS vision and objectives policy are you commenting on

Section 2 The Isle of Wight and the issues we face

3. Does your comment relate to a specific paragraph(s)? if yes which paragraph does this relate to?

My comment relates to the consultation period not adhering to policy

4. In relation to the policy or paragraph you are commenting on, do you consider the Island Planning Strategy for submission to be legally compliant?

No

5. Please give details to support your answer to question 4

- **No, Failure to comply to Duty to Cooperate**
- **No - not legally compliant**

6. In relation to the policy or paragraph you are commenting on, do you consider the Island Planning Strategy for submission to be sound?

No

7. If you answered no to question six is this because?

- **Not consistent with national policy**
- **Not effective**
- **Not justified**
- **Not positively prepared**

8. What modifications do you think are needed to make the Island Planning Strategy legally compliant and/or sound?

The consultation period is a 'fixed period' of six weeks intended to allow enough time for residents to be consulted on the IPS (a document which will affect us all for 15 years).

The IoW Council made the latest version available only 11 days into the period (on the 19th July); and four days before the end of the period, a new 'compliant' form were published.

1) The plan should have been available at the start of the consultation period

2) The consultation period should have been restarted when the correct form was available

The IoW Council therefore have not adhered to the consultation period invalidating the process.

The IoW Council have also offered residents no support in completing the complex and clunky forms, which will make the consultation period even more challenging to meet for those residents without access to the internet, or the support / advice to help them complete such a complex form.

9. Do you have any comments on the policies map?

Yes, EV10 settlement gap for Freshwater does not align with FNP boundary (2017-2027). Boundaries cannot be moved without proper consultation. The boundary move in question affects precious grade 2 agricultural land

11. Do you wish to request to appear at the hearing sessions that will take place?

Yes

12. Please outline why you would like to attend?

To ensure proper procedure has taken place, and the views of residents have been heard
