Location of the Property to which the work relates: _____

Consideration of High-Efficiency Alternative Energy Systems;

Have you specified any high efficiency alternative energy systems?

YES / NO

If yes, please list solutions used and outline the main influences on your decision.

If no, outline the main influences on the decision not to adopt such options, taking into account the technical, environmental and economic feasibility of using high-efficiency alternative systems in the design of the new building.

Please return the completed form to building.control@iow.gov.uk prior to commencement of work.
