#### JOB SUMMARY

Post Title	Public Health Senior Practitioner						
Job Family	Partnership, Commissioning and Contracts	Pay Range	12	Line Manager to others?	Yes	Role profile ref	PCC12
Service Area	Public Health						
Line Manager	Public Health Principal						
Location	Agile/County Hall in Newport, home and where it is appropriate to work. The role is based at County Hall in Newport where a flexible working policy is in place. Occasional travel to the Hampshire County Council offices in Winchester is also required.						

#### **Job Purpose**

Develop, implement, commission, deliver and performance manage a range of Public Health programmes and projects across the Isle of Wight to address national and local Public Health priorities.

Provide specialist Public Health support to professional groups and organisations and other key stakeholders to ensure there is a co-ordinated and evidence-based approach to commissioning services, programme/project implementation and delivery.

## Job Context (key outputs of team / role to provide some specific examples of role profile accountabilities)

- To contribute to the development, delivery and evaluation of public health business plans.
- To lead and contribute to service development and redesign for specific areas of public health to increase clinical and cost effectiveness and drive continuous quality improvement.
- To generate and apply insight data to inform the development of targeted interventions with communities at high risk of poorer outcomes to reduce inequalities. Contribute to needs assessments, public consultation and equity audits.
- To develop evidence-based outcomes measures to be able to monitor, evaluate and report on the
  performance of public health programmes/projects and key public health outcomes against targets,
  indicators and feedback.
- To manage, develop and sustain key working relationships across a number of organisations, providing
  specialist public health input to a range of partnerships in order to facilitate collaborative working with
  commissioners, providers, private sector and voluntary sector stakeholders, identify local public health
  priorities and develop the action plans, policies and strategies to meet these priorities.
- To allocate and manage resources, including budgets, for specific public health programmes and projects.
- To contribute to public health training, including public health training for trainees and practitioners who have a public health focus to their jobs, and for multi-agency, community-based training events to promote and support the delivery of public health initiatives and programmes.
- To deputise for the Public Health Principal as required.
- To provide assurance to the Public Health Principal as required.
- To contribute to local and national public health audits and research projects in order to develop evidence of effectiveness in a range of public health areas.
- To provide effective line management to the Practitioner(s) undertaking all necessary people management tasks and ensuring appropriate development and performance management.
